STRATEGY GENERATION

[System]: You are an algorithm expert in solving the Multi-Skill Resource-Constrained Project Scheduling Problem (MSRCPSP).

[Task]: Optimization objective: Minimize makespan

Please generate **{n}** completely different implementation thoughts based on the given strategy: **{algorithm}**. Each thought must be described in detail and strictly start with '**{algorithm}**' as the beginning of the sentence.

[Requirements]:

Output example:

  [Specific idea 1,

  Specific idea 2,

  ...

  ]

Each strategy's content should be ≤50 words. Do not output any other content.
